A Wonderful Record.

As made up by improved and exact processes Dr. Pierce's Favorite Prescription is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. It cures the backache, periodical headaches, the dragging-down distress in the pelvic region, the pain and tenderness over lower abdominal region, dries up the pelvic catarrhal drain, so disagreeable and weakening, and overcomes every form of weakness incident to the organs distinctly feminine.

"Favorite Prescription" is the only medicine for women, the makers of which are not afraid to print their formula on the bottle wrapper, thus taking their patrons into their full confidence. It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our day, recommending it for the diseases for which "Favorite Prescription" is used. It is the only put-up medicine for women, sold through druggists, which does not contain a large percentage of alcohol, so harmful in the long run, especially to delicate women. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the operating table and the surgeon's knife. It has restored delicate, weak women to strong and vigorous health and virility, making motherhood possible, where there was barrenness before, thereby brightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bonds and add sunshine where gloom and despondency had reigned before.

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain, sealed envelope, absolutely free. Address him at Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets do not gripe. They effectually cleanse the system of accumulated impurities.

The People's Common Sense Medical Adviser, by Dr. Pierce, 1008 pages, is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address as above.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Hard Work for Public Printer.

The last session of Congress was a strenuous one. There were 28,236 bills and resolutions printed at the government printing office during the session, compared with 27,903 during the three sessions of the fifty-eighth Congress. The comparison on enrolled bills, laws, reports of Senate and House, and of the daily Congressional Record, also shows that the session just closed produced more printed matter than the whole of the last Congress. This information was brought out at a hearing Saturday before the Senate committee on printing for the purpose of determining where the blame, if any, should lie for the delay in the final enrollment of the public buildings, billwhich detained Congress in session until 10 o'clock at night on the closing day of the session.

Enrolling Clerk Horn, of the Senate, said he had no specific information on the bill, it being a House measure, but he said that errors and mistakes had been more frequent in matter coming from the printing office this year than ever before. Captain Brian, of the printing office, gave a detailed statement as to the exact time at which the copy of this bill was received and returned to the Capitol printed. The evidence seemed to prove that the delay was in the House enrolling-room, but that it was entirely due to the physical impossibility of preparing the bill for final printing in the time desired. Several errors, some of which originated in the printing office and others in the House enrolling-room, caused nine pages of the bill to be sent back to the printing office between 6 and 8 o'clock on the evening of June 30. It was the correction of these that kept Congress in session late that night.

The printing office proved by its reports that exceptionally good time was made at that end of the line.

There was no representative of the House enrolling-room present at the inquiry Saturday.

Fire on an Oil Steamer.

The British oil steamer Indrani, Captain Williams, from New York to Shanghai with 300 drums of naptha and 35,000 cases of oil on board, caught on fire yesterday afternoon just east of Singapore, India. Many drums were thrown overboard and the fire eventually was put out. The Indrani continued her voyage.

The fire began by the bursting of one of the naptha drums. Flaming naptha flowed across the dock, and the other drums caught fire almost immediately. A pillar of flame and smoke was seen rising from the ship. The Chinese crew refusing to assist in the work of throwing the burning drums overboard, clambered into lighters. The captain and officers of the Indrani threw the flaming drums into the sea and managed to save the ship, whose iron deck alone prevented its destruction.

Floating drums of naptha, blazing furiously, drifted with the tide into Singapore harbor and crossed the man-of-war anchorage. Shipping and wharves were endangered, when a set of the tide carried the drums to the southward, where they gradually burned out.

In the meanwhile the fire on board the Indrani had been extinguished and she continued on her way.

This is the second fire which has occurred on board the Indrani since she left New York April 10 for Chinese ports. A dispatch dated June 7 said that the Indrani had been saved from destruction by fire by the throwing overboard of 250 drums of naptha.

An Attempt to Blow up a Hotel.

Mystery surrounds an attempt made Saturday morning at 1 o'clock to blow up the Commercial Hotel, the leading public inn of Lincoln, Ill. A dynamite bomb was thrown against the structure, but luckily it did not explode until it had fallen to the ground, where its force was partly broken by a low shed built over a cellar entrance.

All the windows for two blocks up and down the main street were shattered, and in many houses pictures were blown from the walls and furniture upset. A big breach was made in the front wall of the hotel and the first floor was wrecked.

There were 50 patrons in the hotel, and they rushed into the street in their nightclothes. The report was so terrific that it awoke practically the entire city, and all the streets were filled with persons in scanty attire for half an hour after the explosion.

Fragments of the bomb were discovered, and the police say it was of clumsy construction. Chief of Police Reetz says that the dynamite was packed in a short piece of drainage pipe, which was closed at the ends, and fitted with percussion caps.

The bomb was thrown from a point about 50 feet from the hotel door. A narrow alley runs back from the street between two houses, and the bomb-thrower crouched behind the corner of one of the houses, and thus escaped the force of the blast.

Street Preachers in Washington.

Street preachers will no longer be allowed to hold forth at will on the streets of Washington after the issuing of an order by the Commissioners today.

The order will require that all persons desiring to deliver sermons, orations, or addresses in the streets must have a permit signed by Maj. Sylvester, chief of police. A violation of this regulation will cost the offender $10. The order will be known as an amendment to section 4 of article 3 of the police regulations, and was drafted by Corporation Counsel Thomas. Members of the Salvation Army and of the various missions of the city express themselves as favorable to the promulgation of this order. They declare that it will not only protect them from the exponents of unworthy causes, but to a great degree remove the stigma placed upon the street preacher by the public on account of the actions of lay preachers who conduct a system of mendicancy.

These latter persons, it is said, take up collections at frequent intervals, and it is said that the money goes into the pocket of the preacher and not to the religious or charitable institution of which he professes to be a representative. It it expected that a general exodus of wandering street preachers will follow the issue of the proposed order.

Oyster Laws Violated.

While making his official rounds and cruising the Potomac on the Virginia police steamer Accomac the chairman of the Board of Fisheries came upon four Maryland boats scraping (or dredging) oysters just above Nomini creek, Westmoreland county last week. It was about sunrise Monday morning, and from the load they had on they must have been working all night, and possibly some of the day Sunday. After a number of rifle shots the boats hove to, and were taken to Bushwood, Md., and turned over to the Maryland authorities. The law between the two States requires that Marylanders caught depredating in the Potomac shall be taken to that State for trial, and Virginians to Virginia.—[Virginia Citizen.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING. JULY 9, 1906.

GENERAL CORBIN speaks very encouragingly of the military situation in the Phillipines, where he held military command for two years. He thinks that the 30,000 Moros in the Philippines will always prove restless. But an outbreak of the Moros, he says, bears no more relation to general conditions in the Philippines than did an outbreak of the Apaches or any other Indian tribes bear to the general peacefulness of his country 25 years ago. According to General Corbin, the time is soon coming when the present military strength in the Philippines, 12,000 men, may be reduced with safety. There are many well-informed officers in the army who will not agree with General Corbin's sanguine views. They recall that a few years ago it was heralded far and wide by General Corbin that the islands were so thoroughly "pacified" that the military force could be reduced, and that, in consequence of his statement, several regiments of infantry and three batteries of light artillery were brought back from the Philippines to this country. But these troops had hardly left the Philippines before their absence was felt, and the administration was compelled to replace them by an equal number of fresh troops, who were hurried to Manila under the pretext that the Chinese boycott threatened the lives of American citizens, and that the government gravely feared it might become necessary any moment to hurry troops from Manila into China, as was done in 1900, when the foreign legations were besieged in Peking. As soon as the troops were safely landed in Manila the government's anxiety over the safety of American citizens in China wanted. The Filipinos fought Spain for their independence for four hundred years and many believe they will continue their warfare against the United States indefinitely.

PRESIDENT CASSATT of the Pennsylvania Railroad Company on Saturday issued an order to all employes and officials of the company requiring them to part with all holdings of stock which they may have acquired. The order cites the fact that it is essential for the company's servants to be free and unfettered in order that they may attend to the company's business impartially! Mr. Cassatt was a long time in coming to this conclusion and it is generally believed that his order will be obeyed in theory only.

PRESIDENT ROOSEVELT and Secretary of War Taft held an important conference at Oyster Bay Saturday in relation to the army. Plans were discussed which, if finally consummated, will have much to do with the cost of maintaining army posts. Attention of the President was called to the fact that there are a number of brigadier generals with nothing for them to do, and the plan proposed is to establish army posts to fit their positions. It would be cheaper and better to retire these officers.

THAT Harry Kendall Thaw is insane and was not responsible for his actions when he shot and killed Stanford White on June 25 will be the defense offered to try to save him from the electric chair. This was decided Saturday by ex-Judge William M. K. Olcott, chief counsel for Thaw. Thaw may or may not be insane now but he certainly must have been when he married Evelyn Nesbitt.

IT HAS been discovered that no provision was made by Congress to cover the cost of enforcing the pure food law. The regulations will be promulgated in September, but the law will not be actually effective until the necessary appropriation is made by the next Congress. This omision prompts the inquiry. Was it by accident or design?

LYMAN J. GAGE, secretary of the treasury under Presidents McKinley and Roosevelt, has taken up his residence at Point Loma, Col., to study theosophy under Mme. Tingley. The ex-secretary, who was 70 years of age on June 28 last, has taken this step, he says, in accordance with instructions received in a dream. Another good man gone wrong.

THE beef trust is trying to explain that the charge, that while the price of beef has greatly increased the price of cattle has declined, is not based on facts. But the word of the trust is hardly to be relied upon as much as that of the housewife and the farmer, who are both up against the manipulations of the beef barons.

THE proposal to model the new defences of Chesapeake Bay after those of the harbor of Tokio suggests the query to what extent Japan is to become the schoolteacher of the world. She has already taught us much, and if she keeps on "ab oriente lux" may again become the rule of the nations.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, July 9.

Consul J. C. Caldwell, of San Jose, has informed the American officials here that the Costa Rican government has granted the duty free importation at Punta Arenas of dynamite and other explosives Company, of Wilmington, Del. The company must establish a substantial magazine which the government will have free useful and provide storage at fixed rates for other person to whom the government say grant permission to import explosive.

Another and very important conference was held at the State Department today between Acting Secretary Bacon, Mr. J. H. Hollander, of Baltimore, and the two representatives of Santo Domingo, Minister Joubert and Senor Velasque, the latter being the special fiscal representative of the Dominican Republic in this country for the purpose of reaching some equitable agreement for the payment of his counry's debts. It was pointed out at the conference that, inasmuch as the U. S. Senate declined to take action on the treaty, the Sanchez-Dillingham agreement, known as the modus vivendi, was now null and void and that the government of Santo Domingo could, if it saw fit, demand the fund in the New York Bank which has been collected there for the purpose of paying Dominican debts. This, however, the present Dominican government does not desire to do, but proposes the appointment of a commission to go over the debt of Santo Domingo for purposes of revision in accordance with the report made to the State Department by Dr. Hollander and after it has been agreed that the fund shall be held in N. Y. in trust pending the ratification of the Dominican treaty, which has not yet been despaired of by the State Department. Some definite announcement of the final agreement reached with Santo Domingo is expected soon to be made by the State Department.

Chairman Knapp of the Interstate Commerce Commission is preparing to take up the work of investigation placed in charge of the commission under the LaFollette resolution which charges a serious condition of affairs in the grain and elevators business. Discriminations are said to abound, and complaints in large numbers were submitted by the senator in substantiation of his charges. The work to be under taken now is of preliminary character. The real investigation will lie over until the fall. Chairman Knapp declares that the subject is one of far-reaching importance the inquiry into which will consume a great deal of time.

John M. Carson, chief of the bureau of manufacturers of the Department of Commerce and Labor, is inclined to believe that denaturized alcohol will become another great product of the southern States. He bases this belief on the statement that cotton seed oil machinery is perfectly adapted to make industrial alcohol from the potato. The many cotton-seed oil mills of the South, which lie idle each summer for lack of material, will be able to operate all the time and keep their employees together. Farmers in turn will be benefited by an immense demand for potatoes.

Bids for sites for the public building authorized by Congress will be opened at the office of the Supervision Architect of the Treasury on August 9 for Clifton Forge, Fredericksburg, Manchester and Winchester.

The President's pay is taken to the White House each month by the same messenger. For years William R. Padgett, formerly a sergeant in Battery A, Fourth United States Artillery, has gone over to the executive offices with a little slip of paper that eight times a year calls for $4,166.67 and four times for $4,166.66. The check is seldom if ever delivered to the President in person, but is receipted for by one of the clerks who is delegated to attend to the work.

The War Department today received dispatches from Guam confirming the reports of the saving of the transport Thomas, which went aground there last week. She was successfully floated or Saturday and yesterday started for Manila uninjured.

Owing to the scarcity of bills of small denomination Secretary of the Treasury Shaw has issued a circular letter to national banks in which he says. "The Treasurer of United States is unable to meet, even at this season of the year, the pressing demand for notes of small denominations. In the absence of legislation I am forced to appeal to the national banks to use every reasonable effort to relieve the situation."

Easy to Arouse His Jealousy.

The New York World of Sunday says: "One of the most intimate friends and associates on the stage and in private life of Evelyn Nesbit Saturday gave to Assistant District Attorney Garvan a complete history of the relations between the Nesbit woman and Stanford White and Harry K. Thaw. She said that Thaw met Evelyn Nesbit before White ever saw her and that the jealousy of Thaw for White dated from the time he first saw the two together.

"This jealousy, the young woman declared, was constantly aggravated by Evelyn Nesbit, who always retained her fondness for Stanford White and who delighted to bring his name up in Thaw's presence. When Thaw, as he invariably did, broke out into curses against the architect, Evelyn and friends, if they happened to be present, laughed at the young millionaire and tried to tease him further."

New York, July 9.—Evidence is being accumulated by the District Attorney that Harry Thaw, who shot and killed Stanford White, held a bitter hatred against the architect and that on one occasion made threats against his life. Assistant District Attorney Garven hopes before the day is over to secure further testimony from two "show girls" of Thaw's strong feeling against White.

Farmer Dynamites Indian Rock.

Washington, Pa., July 9.—Because curious persons visited his farm every day to see the famous "Painted Rock," sculptored centuries ago by Indians, Joseph Horner blew up the relic Saturday with dynamite. He did not appreciate its historic value.

For a hundred years the rock has been subject of discussion among the historians and scientists. It was in the shape of a great altar, and upon its surface Indians had carved figures of men, bears, wolves, snakes and strangest of all, a kangaroo. Scientists have never been able to figure out where the Indians got the model for the kangaroo. The rock was near Millsboro, and overlooked the Monongahela river.

Elliston held a loaded revolver in each hand, and between his legs was a jug of whisky. Bledsoe surrendered himself to the authorities.

Plans have been completed and the necessary capital practically enlisted for the construction of an ice plant in Washington capable of manufacturing 300 tons of ice a day during ten months of the year. A practical ice man who has been in the business for twenty years is back of the movement. Not only a plentiful supply of ice, but cheaper prices are promised. The American Ice Company, which, it is contended, has practically dictated prices for the last ten or twelve years, will be faced by competition such as it has never met with before.

The donors are to be a committee of respectable citizens of Corvallis, Ore., where Creffield and his band created so much excitement and indignation three years ago.

C. Meade Emory, a lawyer, was shot and probably fatally wounded at his home in Seattle, Wash., Saturday night by Chester Thompson, a student at the University of Washington and son of William H. Thompson, formerly an attorney for the Great Northern Railway Company. Thompson, it is said, was infatuated with Miss Charlotte Whittlesey, a niece of Emory, and Miss Whittlesey, it is alleged, had requested her uncle to prevent Thompson from entering the house. When Emory attempted to carry out his niece's wishes Thompson shot him. The latter was arrested with difficulty.

A hundred or more were cut and bruised and women fainted in the rush for safety, but the only serious hurt was sustained by William Friend, assistant stage manager, who was in the frame box with the machine, and was badly burned. When the fire caught on the box in the galley, the audience of 2,000 made a concerted rush for doors and exits. Women with children fought their way over seats to doors and windows, and the youngsters were passed out to surrounding roofs, some of them being lost in the excitement. People in the gallery took to the roofs and were taken down on ladders by firemen, who arrived on a general slarm.

The President and the Meat Packers.

Chicago, July 9.—Another clash is imminent between President Roosevelt and the packers. This came to light today when Secretary Wilson, of the Department of Agriculture, having established himself at the Auditorium with the staff of experts whom he has brought here to revise the meat inspection bureau, gave out an interview in which he expressed in measured terms his "disappointment" at the grudging spirit in which, he said, the Chicago packers are meeting the demand for reform. He went further and questioned the sincerity of their declaration that they wanted government inspection. He said drily that it looked to him as if they wanted "another fight," and that he let it be known that the government was ready to give them one rather than accept any half-way measures in the amelioration of conditions surrounding the meat inquiry. Indirectly, the report of the Manufacturers' Association is responsible for the situation. Ever since its publication Saturday the secretary and his department heads have been making a close study of it, line by line. They found it anything but a "whitewash." They expected to discover evidence that these plants were being made to equal the abbatoirs abroad. They found petty economy instead. "It seems to me that the packers of Chicago have not yet learned their lesson," said the secretary. "This report of the experts retained by the Illinois Manufacturers Association and the Chicago Commercial Association is eloquent in their evasions. It seems to us that the packers have had ample time, if they were so disposed, to launch much greater improvements, for instance, in the sanitary conditions of their plants. There will be no controversy between the government and the packers. That won't be necessary. In the event that they object to our close inspection of their canned products, for instance, there will be no label for the coming. That is all there is to it." The secretary today is presiding over a meeting of the superintendents of federal meat inspectors from the different cities about the west.

Murderer Electrocuted.

Boston, July 9.—Half crazed with fear, yet anxious for the ordeal of death to be over, John Schidlofski, wife murderer, the second man to be electrocuted in the Charlestown State prison within a month, died in the electric chair at 12:23½ this morning. Assisted to the death chair by two persons, Schidlofski recovered sufficient composure at the last moment to seat himself, but the moment the straps were applied he trembled from head to foot and without a parting word he moaned continually until a single shock ended his life. Half an hour before Rev. Robert Walker, chaplain of the Middlesex county house of correction, who has been Schidlofski's spiritual adviser since his first incarceration, notified the man that he was to die within a few minutes, and he unassisted sat upon the edge of his cot and dressed for the execution. Schidlofski entered the death chamber at 12:16:30. He was supported on one side by a prison guard and on the other by Chaplain Walker, who spoke words of consolation to the condemned man.

As the three reached the chair, the two who were helping Schidlofski paused for a moment to allow the condemned man to make a statement, if he so desired, but he stepped forward and took his seat without a word of any kind. After he reached the chair, Schidlofski leaned back and closed his eyes, without a murmur, but when the attendants stepped up to adjust the head-gear and tighten the straps that kept him in the chair, he moaned audibly and continually until the deadly current had been applied. The current of 1,850 volts was applied for sixty seconds. During this time the intensity of the current was gradually decreased and at the end of the minute it was turned on to its intensity and kept at 1,800 volts for five seconds and then shut off. The attending physicians then approached the chair and endeavored to detect signs of life. Their examination consumed four minutes and at the end of that period they declared the man dead. The electrocution was said to be the most successful of any that have taken place in this State.

The Hold-up in Yosemite Valley.

Wanona, Cala., July 9.—In the hold-up of a Yosemite Valley stage Saturday afternoon, Russell Kimmel, a young fellow from Dayton, O., was called out of line to search his fellow passengers who were lined up on the roadside. He told the robber he did not care to do it, and was very much frightened. He lost his watch and fob. C. E. McStay of Los Angeles, seeing the youth's frightened condition volunteered to be a highwayman. He passed the hat to the passengers and when he was through the robber himself searched McStay, getting only a few dollars in loose silver. Another fortunate passenger was Miss Danielson, of Chicago. She was not disturbed. W. W. Kuher, of Chicago, lost $20. His sister, Mrs. J. C. K. McCasley, a missionary from Japan, had to give up a gold watch and $10. Another sister, Mrs. Harriet Cohman of Seattle, was not a loser. Mr and Mrs. Phillips, of London, were the keenest losers, giving up $240 in cash, and jewelry. A despatch from Berenda announces that the lone bandit has been captured near Aswanee. His name is not known.

Wages Advanced.

Boston, July 9.—This morning an advance of 5 per cent. in wages in cotton mills in this city and other towns and villages of southern Massachusetts and Rhode Island went into effect. About 45,000 operatives are benefited. An advance of 5 per cent. in wages was made today in all the cloth mills of New Bedford, and in some of the yarn mills there. About 15,000 hands are employed in that city. Practically every cotton mill in Rhode Island also gave the 5 per cent raise today to their 25,000 hands.

New York Stock Market.

New York, July 9.—After a steady to firm opening that was followed by moderate advances in a number of stocks the market became heavy on pressure from some unknown source. During the rest of the first hour the tone was heavy and the price movement generally downward. In the first few minutes there were gains ranging from ¼ to 1¼ points, which were followed by declines of one to two points. There was little outside business and traders at first trying to advance prices turned to the bear side and have since been sellers.

Standard Oil Company and the Railroads

Cleveland, O., July 9.—The government's investigation of the Standard Oil Company and the railroads is on before the grand jury of this district. The men who will form the federal grand jury before whom the evedence asking for indictments will be presented were on hand early today. United States District Attorney Sullivan disregarded his usual office hours to put in the finishing touches of preparation. The subpoena of Captain George J. Grammar, traffic manager of the New York Central Railroad lines, has been withdrawn, and he will not appear before the jury. The federal officials feared his testimony might give him "immunity." Marcus F. Tully, auditor of freight receipts, and employes of his department will probably be other witnesses. In connection with the action against the Standard Oil Company, at Findlay, Ohio, Sheriff Groves was in Cleveland Saturday with a warrant for J. D. Rockefeller. After going through the formalities of searching for him he left a warrant and a certified copy of the information with J. M. Robertson, secretary of the Standard.

Solicitor Appointed.

Oyster Bay, N. Y., July 9.—Secretary Loeb announced this afternoon when he returned from his daily visit to Sagamore Hill, the appointment of Charles Earl as solicitor of the Department of Commerce and Labor. Mr. Earl is at present an attorney in the Department of Justice at Washington, and was formerly employed in the bureau of corporations at the capital under Commissioner James R. Garfield. Mr. Earl succeeds as solicitor E. C. Sims, who was recently appointed United States District Attorney at Chicago. Mr. Earl comes from Massachusetts. Since he became connected with the bureau of corporations, he has lived at Riverdale, Md., and has a voting residence in that State. Mr. Loeb also announced the appointment of Richard K. Campbell, formerly solicitor of the bureau of immigration, as chief of the new bureau of naturalization.

Automobile Attacked by a Deer.

Albany, N. Y., July 9.—Springing out from the thick bush that lines the roadway along the Mohawk Valley, ten miles west of Albany, a giant buck deer yesterday charged an automobile driven by Wm. E Snyder. Thinking that the buck would stop before he reached the machine Snyder stopped his car to get a better view of the animal. The apparently maddened beast, however, kept on, and before Mr. Snyder could get his machine under motion, the buck had ripped off the rear headlights with his antlers, and pierced one of the tires. By this time, the machine had gathered considerable speed and the buck sprang back into the bush, evidently thrown into a panic by the exhaust from the engine. Snyder's machine limped into Albany on three tires.

No Paper Bathing Suits.

Atlantic City, July 9.—Summer girls who essay this season to appear on the beach in white bathing suits must follow the material injunction and "not go near the water." Complaints that fair bathers were shocking beach crowds by wearing garments that, when wet, become almost transparent, resulted in the edict going forth from life-guard headquarters today. As a result one Philadelphia maiden came near getting into jail. The young woman appeared on the beach yesterday afternoon in a suit of immaculate white. When she emerged from the water Guard Penny decided she would be almost as well attired in a smile. He at once ordered her off the beach with her abashed escort, who wore a suit of similar flimsiness.

Fined for Assault.

Oyster Bay, N. Y., July 9.—President Roosevelt's personal secret service bodyguard, James Sloan, pleaded guilty and was fined $10 by "Squire" Franklin, this morning, for assaulting Clarence Legendre, a photographer, employed by the New York World, on Sunday July 1, the day the executive arrived from Washington. The assault committed by Sloan followed the snapshotting of the President and Mrs. Legendre after he had been forbidden to take the picture by the secret service men. Legendre secured a picture in spite of the guards and when Sloan expostulated with him for taking it, laughed tauntingly at him, and called him a "bluffer." Sloan then struck him in the face.

Robber Captured.

Altoona, Pa., July 9.—Carmillo Orgissi, alias the "Dago Kid," was caught this morning in the act of cracking the safe in John Cassidy's coal office by patrolmen Hetterly and Gartland. Gartland shot twice at the robber before he surrendered.

Later this morning Louis Silverman, clothier and furnisher, reported a robbery at his store. "The Kid" was accused of this job, and confessed, the goods having been found in his rooms. He carefully selected such goods as he could wear, packed them in a suit case, and left the store. Orgissi is 21 years old and came here a month ago, from Philadelphia.

Alleged German Intrigue.

Manchester, Eng., July 9.—The dispatch today says that the British Foreign Office is in possession of extensive evidence of a serious German intrigue at Cairo, Egypt, for rousing the natives against English rule, and that the reason for the statement given by the Secretary of State for Foreign Affairs, Sir Edward Grey, in the House of Commons last week was to warn Germany that England was cognizant of the Kaiser's attempt to arouse dissatisfaction in Egypt. The Dispatch also declares that the Kaiser hopes, by playing into the hands of Sultan Abdul Hamid through helping him to bring about the Pan-Islamism of Egypt, to secure concessions in Asia Minor.

Secretary Taft.

Greensboro, N. C., July 9.—Secretary of War Taft will arrive in Greensboro this evening where he will tonight deliver an address to the delegates to the republican state convention and others. His appearance, in response to a pressing formal invitation extended several weeks ago, by the republican state committee, is regarded by many as the initial step in the opening of his campaign for the presidential nomination.

Long Branch, N. J., July 9.—The bakery and general hardware store of A. M. Townley, on Broadway, were destroyed by fire this morning. The loss is estimated at $50,000. The flames were fanned by a strong wind and for a time the business section of Long Branch was threatened. The firemen, however, succeeded in confining the flames to the Townley property.

Eloping Princess.

Zurich, Switzerland, July 9.—Princess Elvira de Bourbon, daughter of Don Carlos, the Spanish Pretender, who recently disappeared from Rome, has arrived here accompanied by Count Folchi, the Italian painter, who deserted his wife and three children, to elope with the Princes. They have become naturalized as Swiss citizens, for the purpose of enabling the Count to secure a divorce from his wife so that they can marry. The Pope recently refused to grant a divorce and this step was made so that Folchi may secure a legal separation from his wife.

P. Hill Camp, No. 2, Culpeper, Va?

Will you also kindly ask your local exchanges to notice this reunion? We are anxious that all should be apprised of it. We hope to make the occasion an interesting one. We will have bands of music to enliven the occasion, and entertaining and instructive addresses by distinguish d soldiers of either army.

Of course all old veterans are invited to attend, but especially those of the Cavalry and Horse Artillery, as we hope by their aid to identify localities of special interest, with a view of erecting stones or other markers as has been done at Cedar Mountain, to preserve for generations to come the historical interest which attaches to localities where great, gallant and patriotic deeds have been performed.

Meeting of the Bar.

The meeting of the members of the bar of this city was held this morning.

Judge Louis C. Barley called the meeting to order and announced its object to be the formulating of certain suggestions as to improvements in the clerk's office and record room.

On motion Mr. John M. Johnson was made chairman and the clerk of the court secretary.

Judge Barley stated what improvements were suggested as per plans in the hands of City Engineer Dunn.

The report of the committee appointed by the Corporation Court was read by the Secretary.

Mr. Dunn was present and stated that the committee on public property had suggested that the record room be placed down stairs and recommended the painting of the court room, placing metal files in the record room, wire windows, &c. and that the cost would be possibly $4,300.

Mr. C. C. Carlin asked if the record room was not placed down stairs would walls have to be built underneath.

Mr. Dunn said that new walls would not have to be entirely built, but that it would be cheaper to have it down stairs.

Judge Norton suggested having a room fitted down stairs for old records, thinking it a bad plan to have the record room down stairs and the clerk's office up stairs.

Mr. Carlin wanted to see the plans, so as to act intelligently.

Mr. S G. Brent suggested that both the clerk's office and record room be down stairs.

Mr. J. R. Caton stated that he spoke after eleven years' experience in the clerk's office and twenty years at the bar, and thought both rooms should be on the ground floor, using the upstairs as jury or witness rooms.

Judge Barley agreed with Mr. Caton.

Mr. Gardner L. Boothe thought the suggestion good, but the cost would be so much greater that it would preclude its adoption.

Mr. Carlin said he would be unwilling to make any recommendations unless it met the requirements of the case. He, therefore, offered the following which was adopted: Resolved, That the clerk's office and record room be located underneath the present clerk's office and record room, consisting of two large rooms made larger, and perfectly fire proof with all modern equipments of a clerk's office.

On motion of Mr. Carlin, the city engineer was requested to prepare plans for the clerk's office and record room down stairs with an entrance into the court room and estimate of the costs, the same to be presented at a meeting of the bar to be called later.

The meeting then adjourned.

Charged with Trespass.

Considerable excitement was caused on King street about 8 o'clock Saturday night by an attempt to rescue Frederick Marks, who had been arrested by Special Policeman Devaughn on the charge of trespassing on the property of the Washington Southern Railway Company. Policeman Devaughn had placed the boy under arrest and was proceeding with him down King street, when, he alleges, Thos. Marks, a brother of Frederick, with several other young men, endeavored to effect his release. Officer Lyles at this juncture arrived on the scene and prevented further trouble. Thomas and Frederick Marks were taken to the station house, where they were charged with interfering with officers in the discharge of their duty and trespassing on the property of the railway company.

Fred. Marks was dismissed when the case was called in the Police Court this morning, but his brother and another youth who had interfered with the officer were fined $5 each.

Wedding.

Edwin K. O'Brien, formerly of Alexandria, but now of Wilmington Del., a graduate of the engineering department of the University of Virginia, and Miss Ruby Evelyn Wingfield, daughter of Henry Wingfield, of Charlottesville, were married at 11 o'clock Saturday morning at Christ Episcopal Church, Charlottesville, the rector, Rev. Harry B. Lee officiating. John D. Constable, of Wilmington, Del., was best man, and Miss Ann Wheeler, of Charlottesville maid of honor. Mr. and Mrs. O'Brien left over the Chesapeake and Ohio Railway for Portland, Me., where they will reside for the present. Among the out-of town guests at the wedding were Mr. and Mrs. O'Brien, father and mother of the groom, and Mr. I. K. O'Brien of this city.

Recovered His Coupons.

While going to a bank several days ago Mr. John A. Marshall dropped a package containing coupons clipped from bonds representing several hundred dollars. He did not miss the coupons until he reached the bank. He hurriedly retraced his steps in search of the package and when he reached the store of the Big Four Cigar Company, he found that City Treasurer Robinson had just succeeded in gathering up the coupons, which had been scattered over the street. Dozens of people had trampled under foot the bits of paper, evidently thinking they were cigarette coupons, simply because they were littered on the sidewalk in front of a cigar store.

Abandoned Child.

A new-born infant, the child of a young colored woman, was discovered Thursday afternoon near Rosslyn, Alexandria county, in a condition bordering on dissolution. It had been in the woods for about 18 hours. By prompt attention it was soon resuscitated. The infant was found by several young men. It was literally covered with ants and other insects when found. Commonwealth's Attorney Mackey will examine the reputed mother of the infant at the home of her father in Rosslyn today. The mother of the infant, it is said, has been employed as a teacher in one of the colored schools of Washington. She is said to be ill in a room at her father's home in Rosslyn.

Luna Park this Week.

The present week will be a memorable one in the history of Washington Luna Park, the new Ingersoll enterprise, which has proven such a success since the opening on May 28. With the establishment of this Park the motto was adopted—"There is nothing too good for Luna Park patrons." In a musical line this has been fully demonstrated by the bands of Liberatti, Philipini, the Navassars and Rivels, and in the hippodrome stage act by such attractions as the Bessie Valdarre Bicycle Troupe, the Herzog-Camaras, the high diving Norins, the Six Semois and Mlle. Ella Zuila, queen of the high wire. For this week Rosati's Royal Italian Band will be in the musical shell and the four Londons on the hippodrome stage. Thousands of dollars are being expended by the management of Luna Park in improvements about the grounds. In the picnic grove one hundred roller swings and a large number of benches and other picnic conveniences are being placed and the oval on the recreation grounds has been completed for the many sporting events which are features of the hundreds of picnics and outings given at the popular amusement resort. Luna Park has been visited by hundreds from this immediate locality who have returned expressing their delight with the new fairyland in the green hills of Virginia. The railroads all have special two-day excursion rates which afford easy opportunity to all who wish to see this "Coney Island of the South." The Luna Park management announces that for the benefit of out-of-town visitors, parties of twenty or more will be personally conducted through the grounds by a representative of the publicity department and that arrangements can be made in advance to secure all necessary tickets by addressing this department, so that there will be no delay after the round of pleasure has begun.

To Be a Houseboat.

The steamer Samuel J. Pentz has been bought by J. Heath, of Washington, and is to be converted into a houseboat on the Potomac river. Her new owner expects to tow her from Baltimore to Washington tomorrow. The Samuel J. Pentz was formerly the Long Island and was built in New York in 1859 for a day boat on the Hudson river, and was then the queen of the fleet on that river. When the civil war broke out the steamer was bought by the United States Quartermaster's Department and used as a transport on southern waters. She was captured by the Confederates and burned, raised by the government and rebuilt, and was sold at auction at Norfolk after the war to the Maryland Steamboat Company and for years ran bay and river excursions from Baltimore. At one time she was on the Aquia creek mail route. In recent years she carried excursionists between Washington and Alexandria and River View.

Rude Joke on Society Gamblers.

It has leaked out that at one of the houses, near Ascot, England, rented by an aristocratic woman, in which to entertain exclusive society during race week, the hostess set up a roulette table, which was an unfailing source of interest after dinner until the small hours of the morning. Three of her men friends, who were staying at another house not far away, hearing of the nightly roulette parties, hired from a well-known costumer the uniforms of a police inspector and two constables. When play was at its height the house was suddenly raided by the "police." Two of the lady players fainted, one of the men in trying to escape fell through a window onto a lawn outside, and another male guest rushed to the stables, where he was seen trying to saddle a horse to take him back to town. He was stopped just in time at the lodge gates, when the hoax was explained to him.

An Old Woman Dead.

"Aunt Annie" Buck, the oldest inhabitant of King George, and probably of the State, died last Saturday week at her home near Cleydale, at the remarkable age of 115 years. Her vitality was remarkable and until recently she was quite active. About twenty years ago she became totally blind, and continued so for about ten years, when her sight returned, and she was able to see well to the time of her death. There is no doubt as to her great age. Before the war she belonged to Mr. Daniel Coakley of that county, and an exact record was kept of her age. She is survived by her daughter, who is about eighty years old, and by a number of grandchildren.

Raves and Dies.

Terror from being clawed by a cat at midnight caused the death of Mrs. Mary Ziegler, in St. Louis. The woman had been operated on for sarcoma, the most malignant of all forms of cancer, and was apparently recovering, when a large white cat wandered into her room in the hospital, climbed upon her bed and clawed viciously at the bed covers, Mrs. Ziegler awoke with a shriek, and her cries brought up the nurses and doctors. She could not be pacified, and continued to talk of cats until she died the following night.

Search for Ancient Statues.

Two specially equipped steamers, with a crew of divers, left Genoa Saturday for the Ægean Sea, following a contract between the government of Greece and the Genoa Society for the Recovery of Vessels, to hunt for Grecian statutes, which sank with a vessel, wrecked near the island of Cerigotto 100 years before the present era, while on the way to Rome. The place of the wreck was recently discovered by accident by a Greek diver, who brought up a statute valued later at 300 francs.

PROPOSALS.

AN ORDINANCE to provide for the granting by the City Council of Alexandria, to the person or corporation hereafter to be ascertained in the manner prescribed by law, of the right to furnish electricity for light, heat, power and any other general purpose to the City of Alexandria and inhabitants thereof, and to erect, construct and maintain the necessary poles and fixtures and to run wires on, over, under and along the streets, public alleys, bridges, parks and other public ways and places in the City of Alexandria, for the purpose of supplying electricity.

Be it ordained by the City Council of Alexandria, Virginia:

Section 1. That there shall be granted in the manner prescribed in an act of the General Assembly of Virginia, approved May 20, 1903, the rights and privileges on, over, under and along the streets, public alleys, bridges, parks, and other public ways and places in the City of Alexandria, which are embodied in the following draft of an ordinance:

An Ordinance to grant the right to ——, its successors and assigns, to furnish electricity for light, heat, power and any other general purposes to the City of Alexandria and inhabitants thereof, and to erect, construct, and maintain the necessary poles and fixtures, and to run wires on, over, under and along the streets, public alleys, bridges, parks, and other public ways and places in the City of Alexandria, for the purpose of supplying electricity.

Be it ordained by the City Council of Alexandria, Virginia:

1. That ——, its successors and assigns, be and they are hereby granted the right to furnish electricity for light, heat, power and any other general purposes to the City of Alexandria, and the inhabitants thereof, for a period of thirty years, and for the purpose of furnishing and supplying electricity for light, heat, power, and other general purposes they are hereby granted the use of the streets, highways and other public ways and places of said City, and are authorized to erect, construct, and maintain the necessary poles, fixtures, and other essential apparatus, to construct and maintain conduits, and to run and maintain wires on, over, under and along the streets, public alleys, bridges, parks and other public ways and places in the City of Alexandria, in order to furnish and supply electricity for light, heat, power and other general purposes to the City or to the inhabitants thereof, upon the conditions, provisions and limitations hereinafter set forth, as well as under these set forth in such ordinances of the City of Alexandria, as may be applicable thereto, and as are not in conflict with this ordinance and the amendments heretofore made or which may be hereafter made to such ordinances.

2. Each route shall be first determined upon by the City Engineer before any poles are erected, and the Committee on Streets may require the said ——, its successors or assigns, to use and occupy the poles already erected by any person or corporation before the running of wires along such route, provided that the City Engineer first deliver to the said ——, its successors or assigns, permission in writing from the owners of such poles already erected, to run and maintain other wires thereon, at reasonable rates to be fixed by agreement or arbitration. All wires run and all work done in pursuance of this ordinance shall be done in a good workman like manner and of material suitable for the purpose, at the time the work is executed, and shall be approved as such by the City Engineer.

3. The rights and privileges hereby granted shall continue for thirty years unless sooner forfeited as herein provided for, and upon the termination or forfeiture of this grant the entire plant, as well as the property of said ——, its successors or assigns, located in the streets, public alleys, or other public places in the city, shall become the property of the City Council of Alexandria, upon the payment to the said ——, its successors or assigns, by the City Council of Alexandria, of a fair cash valuation of said entire plant and property, but the said—— shall be entitled to no compensation by reason of the value of the franchise hereby granted. In the event of the City Council of Alexandria and the said—— its successor or assigns, being unable at least six months prior to the termination of this grant, or within thirty days after the forfeiture thereof, to agree upon a fair and just cash valuation of said plant and property then and in that event, such valuation shall be determined by arbitrators, one to be appointed by the City Council of Alexandria, one by the said——, its successors or assigns, and the third (in case of disagreement by such arbitrators) by these two arbitrators, or, in the event of the the two so chosen being unable, within twenty days after the date of the appointment of whichever of the two was last appointed, to agree upon a valuation, or failing that to agree upon a third arbitrator, the third arbitrator shall be appointed, by the then Judge of the Sixteenth Judicial Circuit of the State of Virginia, and the three arbitrators so appointed, shall proceed to establish a fair cash valuation of said plant and properties excluding the value of or any compensation for the franchise hereby granted, and upon the payment of the amount so established and fixed to the said — —, its successors or assigns, by City Council of Alexandria, the said plant and property shall thereupon vest absolutely in the City Council of Alexandria, and any expense incurred for compensation for the three arbitrators so appointed, shall be borne by the said——, its successors or assigns, and the said City Council of Alexandria, equally.

4. The City Council of Alexandria expressly reserves the right to impose other reasonable regulations, conditions and requirements upon the said ——, its successors or assigns and to pass such other ordinances as may be necessary to secure efficiency of public service by said ——, its successors or assigns, at reasonable rates, and to compel the said ——, its successors or assigns, to maintain said plant and property of the said —— in good order throughout the term of this grant; and it is hereby expressly provided that for a failure to comply with any material provision of this ordinance or of any such regulation, condition, requirement or other ordinance, this ordinance may be declared forfeited by said City Council of Alexandria, and be repealed, and the franchise hereby granted be declared to be at an end, provided always that any such failure shall not have been made good by the said ——, its successors or assigns, within ninety days after written notification of such failure to said ——, its successors or assigns, provided always that any such failure resulting from the act of God, public enemy, strikes at home or abroad or from any other unavoidable accidents or events, shall not be deemed a ground for declaring the franchise, rights and privileges hereby granted repealed, forfeited or at an end.

And it is further provided that should the said ——, its successors or assigns, be compelled by virtue of any state or municipal law or ordinance to place its or their conductors or any portion or portions thereof under ground, that the City Council of Alexandria shall provide, at its own expense, the trench or trenches necessary for the burying of such conductors, said City Council bearing the entire expense and responsibility incident to the opening and closing of such trench or trenches and the proper relaying of the pavement thereby disturbed, and said ——, its successors or assigns, bearing the entire expense incident of the furnishing and placing within such trench or trenches or the underground conductors and conduits so required.

5. For failure to comply with any material requirement of this ordinance the said ——, its successors or assigns, shall be liable to a fine of not less than ten nor more than one hundred dollars for each offense, each day's failure to be a separate offense, said fine to be collected as other fines are collected and paid into the city treasury. The imposition of any fine under this section shall not prevent a forfeiture under the foregoing section.

6. That the said ——, its successors or assigns, in the equipment of the poles, wires, fixtures or other works will use such appliances as are best designed to prevent injury by electrolysis to the water and gas mains and pipes or other public improvements of the city, and will pay to the City Council all damages to gas mains and pipes occasioned by electrolysis caused by the failure to use such appliances and will also indemnify and save harmless the City Council from all claims of damages occasioned to person or property growing out of injury from the failure to use such appliances. The said ——, its successors or assigns, agree and bind themselves to hold the City Council free and harmless from liability from any and all damages, except as herein otherwise expressly agreed, that may accrue to any person or persons or corporation or corporations on account of injury or damage to person or property growing out of the construction, improvement, maintenance, repair or operation of the works and fixtures hereby authorized, and whenever the city is liable therefore and shall be sued for such damage either independently or jointly with the said ——, its successors or assigns, on account thereof, the said ——, its successors or assigns, upon notice to it or them by the City Council will, except in a case where it is herein agreed that the entire responsibility for any stated work shall lie on the City Council, defend the city in such suit, and in the event of a judgment being obtained against the City Council, either independently or jointly with the said ——, its successors or assigns, on account of acts or omissions of the said ——, its successors or assigns, then said ——, its successors or assigns, will pay such judgment with all costs, and hold the City Council harmless therefrom.

7. The said ——, its successors or assigns, shall have a telephone placed and kept in its or their central station and whenever it shall become necessary to have the current cut off the wires on any of its circuits during the progress of a fire, said ——, its successors or assigns, shall immediately, upon the receipt of a message from the Chief of the Fire Department, or his representative, have the current on such circuit cut off and allow it so to remain until notified by the said officer or his representative that the said current may be again turned on.

Should said ——, its successors or assigns, fail, at any time, to immediately obey any such message whenever given, it or they shall be liable to a fine of not less than ten dollars nor more than one hundred dollars for such failure.

8. The privileges hereby granted are given upon the following further conditions:

(a) That said ——, its successors or assigns, will, within six months from the date of approval by the Mayor of the city of Alexandria, the final ordinance granting the privileges herein contained, begin to construct the work hereby authorized, as herein agreed, and fully complete the same within twelve months after the approval of said ordinance.

(b) That said ——, its successors or assigns, will continue to push to completion such work as herein agreed, until said ——, its successors or assigns, shall be ready to furnish an adequate current for electric light, heat and power.

(c) That said ——, its successors or assigns, shall, before commencing work under the provisions of this ordinance, execute a bond with security to be approved by a majority of the Finance Committee of the City Council of Alexandria, in the penal sum of ten thousand dollars, conditioned upon the faithful construction and putting into operation, within the time prescribed, and for the proper maintenance and operation of the plant and works necessary to secure efficiency of public service, and to protect the City Council from damages arising from suits or otherwise, for which said——, its successors or assigns, are responsible.

Section 2. That upon the approval of this ordinance by the Mayor of the City of Alexandria, it shall be the duty of the Clerk of the City Council to cause to be advertised once a week for four successive weeks, in a newspaper published in the City of Alexandria, a draft of the ordinance contained in the foregoing section, and in addition, be shall, in such advertisement, invite bids for the franchise, privileges and rights proposed to be granted in the proposed ordinance, and also for the present electric plant of the city. The costs of this advertisement shall be reimbursed to the City Council of Alexandria by the person or corporation to whom the grant of this franchise is finally made.

The City Council will reserve the right to reject any and all bids. Every bidder will be required to file with his bid a certified check for five hundred dollars, payable to the order of the City Council of Alexandria, which certified check will be returned to said bidder on the rejection of his bid, or, if his bid be accepted and the above franchise awarded him; said certified check will be returned on the delivery to the City Council of the bond mentioned in sub-section of Section C of section 8, above.

The bids are to be delivered to the presiding officer of the Common Council of the City of Alexandria, at the day and hour of the next regular session of said body in open session to be held next after such advertisement shall be completed, which bids, by said presiding officer, shall be then and there presented to the City Council, to be dealt with and acted on in the mode prescribed by law.
